Report of the Inspector of Animals

To the Board of Selectmen:

During the year 1925 I inspected 140 barns, 796 cattle, 1 pair oxen, 1 goat, and 60 swine.

I find a decrease of 106 cattle and 52 swine since the year 1922.

No cows have been condemned the past year.

Respectfully submitted,

F. O. TRIPP,
Inspector of Animals.

Alden Ball Park Fund

To the citizens of Acushnet;

In accordance with the provisions of the will of Alden Ball to the Town of Acushnet, the sum of (10,000.00) ten thousand dollars having been left to the Town to be spent for Park Purposes, the Commissioners of Trust Funds hereby submit a detailed report of the expenditures for labor, material etc. for the laying out of the Pope Memorial Park. The work was started in the spring of 1925, under the supervision of Clovis Poyant.

BOARD OF HEALTH

To the Citizens of Acushnet:

Gentlemen:—

Your Board of Health respectfully submits the following report.

Immediately following the annual election (the members having been duly sworn into office) the Board met and organized as follows:

Joel P. Bradford, M. D., Chairman.

Fred E. Wellington, Secretary and Agent.

Otto Melzer, Inspector of Milk and Dairies.

Albert S. Jenney and Allen E. Weeks were appointed inspectors of slaughtering for the year 1925, which nominations were subsequently approved by the State and they were duly sworn into office.

A building of a second slaughtering house has made additional work for these inspectors. Their work has been done in a very satisfactory manner and their combined report follows:

Animals	Passed	Condemned
Beef	834	23
Veal	1331	6
Swine	148	
Sheep	4	
Goats		
Total	2317	29

Report of Milk and Dairy Inspection follows;

During the year 1925 I have issued twenty-five milk licenses after having inspected all barns and dairies and finding them in a satisfactory and sanitary condition.

OTTO MELZAR,

Inspector.

Report of Contagious diseases as follows:

Measles	5
Chicken Pox	5
German Measles	7
Scarlet Fever	11
Tuberculosis	8
" Pulmonary	1
" Spinal	1
" Glandular	5
Mumps	1
Typhoid Fever	
Diphtheria	
Opthalmia	
Total	42

Added to this is the report of special inspection of the children of the schools in connection with state.

Reacting to tubercular test 33, Hilum tuberculosis 5, Latent Hilum tuberculosis 1, suspicious 11.

Your Board realizes as never before the almost complete failure in securing reports of contagion attended by its appalling possibilities of epidemic and serious loss of life.

And we wish to appeal once more to all parents and citizens to report at once any case of contagious disease, and thus avoid the criminal possibility of causing the death of some neighbor's child by selfishly exposing it to contagion, to avoid the restriction placed on such cases.

The law in these cases is mandatory that any householder or other person knowing of the presence of a contagious disease and failing to report the same shall be punished by a fine not to exceed \$100.00; and let us add to this the Golden rule "Do unto others as you would wish them to do by you."

We feel gratified that our town has been spared any serious epidemic this year and are glad to acknowledge the assistance of the school department in securing reports of suspicious cases and heartily thank Principals, and teachers and especially our Superintendent for their personal interest.

Coming to the consideration of our finances we wish to say, that the revised "Inspection of slaughtering bill" has actually secured the relief we asked for, yet it resembles so slightly the bill as originally drafted and its terms are so deceiving that without some explanations the report would give a very false impression.

Added to this the fact that the new State system of accounts precludes the return to a department of credit for money returned makes our finances look like what they are not, as follows:

Appropriation for year	\$2,000.00
Inspection of Slaughtering	800.00
Subsidy on Tuberculosis Cases	611.40
Balance Returned	23.06
Amount actually spent in maintenance	565.06

In other words \$1,434.94 of our appropriation is actually returned to the town and into unappointed funds, and your Board must come before you and ask for as much appropriation or perhaps more, if tuberculosis increases, from the taxes of 1926, to actually pay the small amount of \$565.06 for its year's expenses.

This money is really not lost but we feel that without

explanation it places us in an unjust position and subject to the criticism of extravagance in our department.

The usual number of complaints both signed and anonymous were investigated and satisfactorily adjusted.

Respectfully,

JOEL P. BRADFORD,
F. E. WELLINGTON,
OTTO MELZAR.

REPORT OF SUPERINTENDENT OF STREETS

To the citizens of Acushnet:

I hereby submit with this report a detailed statement of the expenditures of the general highway account for the year 1925. All the dirt roads were scraped early in the spring, the paved were all cleaned, bushes cut on all different roads, and guard rails built on and around bridges where needed. The catch basins were all cleaned early in the spring and late in the fall. Many country roads need to be graveled, some are now in very bad condition, and it is my intention to start on these roads when the work opens in the spring.

Respectfully submitted,

JOKIE BETTENCOURT,
Superintendent of Streets.

ACCOUNTING DEPT. 1925

To the Citizens of the Town of Acushnet:

The town of Acushnet took a long step forward when it adopted the State Accounting System. Most of the towns and cities in the State have availed themselves of the opportunity and have adopted the system.

Some of the good features of the system are depositing all cash received and making all payments by checks. The monthly appropriation statements keep the departments informed of the unexpended appropriations. The classification book gives the source of receipts and enables the taxpayers to see how much of the town's expense is applied to each department regardless of appropriation. Since the system is uniform throughout the State it gives an opportunity for making comparisons with other towns and cities.

Although the system requires more attention it is to the town's benefit to keep it up, as otherwise it is of little value. Any private corporation with this town's volume of business (1925, cash receipts \$260,707.27; payments \$272,394.85) would expect to keep complete records. The same applies to a public corporation.

As the books were not closed at the fiscal year ending December 31, 1924, it was necessary for the town accountant upon entering office in March 1925, to list the assets and liabilities, as of the first of the year, as they appeared on the books. The books for 1924 have not as yet been closed.

During the year it was necessary to call the Board of Selectmen's attention to the Town Treasurer's Department.

Although the accounting department has relieved our treasurer of much of the bookkeeping, he is still unable to keep his cash records up to date and in a proper method. This has caused the accounting department unnecessary work and with little satisfaction. The correct cash balance for the first of the year was not ascertained until ten months later, when at that time the Director of Accounts inquired as to the Treasurer's Report in the Town Annual Report.

As the treasurer's monthly cash reports for the year are still forthcoming it has been impossible for the accounting department to rectify and correct or have corrected, items of omission or errors that have occurred.

These items appear in the cash book reconciliation that follows later.

Surely, a man of experience and caliber that our treasurer has and the length of time in the present office must know his duties. Ignorance is no excuse.

The taxpayers of the Town of Acushnet are entitled to better methods and the burden falls upon our governing Board of Selectmen, when informed of the conditions, to see that such is done.

At the close of the year, upon going through the 1924 accounts it was found that the Notes and Interest of 1924 had been overdrawn by \$3,667.85 and has not been disposed of at the town meetings.

Files should be provided for the protection of the town's bills and vouchers. At present the vouchers are scattered about and as they are the originals that are recorded in the books, they should be protected from loss or fire.

JERRY J. RIENDEAU,
Town Accountant

Report of the School Committee

FOR THE YEAR ENDING DEC. 31, 1925

To the Citizens of Acushnet:

Substantial repairs and improvement in equipment having been made during the past fiscal year at the Parting Ways School and the Long Plain School we feel that the present physical condition of the schools is very fair with the exception of the Portable at Parting Ways. This will receive the attention of the Board in the spring.

The Long Plain School has been equipped for Manual Training and classes are being held under the instruction of Mrs. Annie Reed, the Principal.

The enrollment this year has totalled 729, an increase over last year's total of 21. In this connection, let it be said, that your Committee, considering the growing registration and the fact that two grades in the Parting Ways School are on part time, and have been for over a year, the increasing cost of sending our children out of town to schools of higher education, and in further contemplation of the fact that land values are rising rather than declining, memorialized the Board of Selectmen to the effect that the Town should earnestly consider the purchase of at least a four acre tract of land for Junior High School purposes. The Board think that the Burt property is the most suitable location for such a school. The Board also recommended that the land on the south side of Parting Ways School extending to Grant Street should be purchased for the purpose of extending the present school premises.

We are happy to announce that the concrete result of a frugal administration of the school affairs during the past year makes it possible to keep our budget for 1926 within the last year's figures.

Respectfully submitted,

JOSEPH DABROWSKI, Chairman,

GEORGE H. YOUNG,

ALPHEE GAUTREAU,

The Committee.

Report of the Superintendent of Schools

Report of School Nurse, 1925

To the Superintendent of Schools:

Perhaps the work of the school nurse would acquire added interest if everybody knew of just what her work consisted. Following are some of the duties outlined by the School Board:

Her duties are to assist the school physician in his examinations and clinics, and to carry out his instructions.

To examine absentees returning to school with a view to detecting evidence of infectious or contagious diseases.

To interview and advise parents, getting information of the social and hygienic condition of the homes, suggesting proper clothing, food and cleanliness.

To advise parents or guardians of the need of medical or surgical treatment, as suggested by the school physician.

To be responsible for the personal hygiene and cleanliness of all children under her care.

To assist in caring for children who are in need of emergency, medical or surgical treatment while in school.

To assist principals, teachers, and the school physician in determining the matter of unfitness or fatigue among the school children especially in the matter of physical training.

If these duties are to be carried out to their fullest extent more time should be allotted to the nurse.

Below is a detailed report of the result of the physical examination for the year:

Number of pupils examined	636
Enlarged tonsils, adenoids and glands	307

Decayed teeth	496
Heart defects	34
Lung defects	53
Goitre	18
Scoliosis	14
10 per cent or more underweight	60
Excellent	38

Report of the State Tuberculosis examination of the children in the Public and Parochial schools of Acushnet.

Number of children examined	90
Number of contacts examined	1
Number of children given the tuberculin test	83
Number of children who reacted to tuberculin test	33
Number of cases of Hilum Tuberculosis	5
Number of cases of Latent Hilum Tuberculosis	2
Number of cases classified as suspicious	11

Respectfully submitted,

EVA CLEMENTS, R. N.

Report of School Physician

To the Superintendent of Schools.

My dear Sir:

In presenting our first annual report as school physician, we must remind you that the results cannot be demonstrated so clearly as we hope to do in the future; yet if you could note carefully you would see an increase already in weight in nutrition in the ten per cent underweight class.

Complying with the suggestion of the State Board of Public Health that you maintain a more careful and instructive supervision over the children at this critical period we realize that you were adding both to the financial and executive burden of your department; therefore you look for some returns from your investment.

With the assistance of the school nurse we started the second week of school, and working three days per week, completed our work early in November, having given 639 pupils a thorough examination in time to note improvement during the year.

This examination consisted of especial attention to general appearance, posture, deformities, teeth (as to cleanliness and defects), tonsils and adenoids, with especial care in examination of heart and lungs, also height and weight.

All defects were carefully recorded on cards so arranged that references may be made and changes noted until the close of the pupil's school life.

It is not our intention to prescribe or advise as to the

means of remedying these defects. The nurse has sent to the parents of each child a card calling the attention to his ailments and advising consultation with their family physician.

In only a few instances has resentment been shown, as though, in advising treatment for the child, we were infringing on the personal liberty of the parents. Our sole interest and aim is to build and develop a class of children who may become a power for the best interest of the community.

Eternal vigilance is the price of safety and we must have our eyes open, our minds clear and a spirit to help in rearing a community of virulent youth ready to take up and complete the work that the present generation has started.

We trust that in the near future some way may be devised to reach every parent in such a way as to carry conviction into every home in Acushnet. Our ideal is nothing short of one hundred per cent physical perfection and to that end we ask the co-operation of all the parents and tax payers.

You will get from the nurses report the items and details of results of examinations made, which we hope will open the eyes of the blindest to the necessity of a continued and thorough supervision.

Our greatest need is a dental clinic and by the reports you will note of 639 children, 496 have defective teeth. Thanks to the assistance to the Board of Health we have the assurance that we will have a dental outfit and the prospect of dental aid in the near future.

In closing, will only say one other ambition is that we may have in the not too far distance a director of supervised physical training.

Respectfully submitted,

JOEL P. BRADFORD, M. D.,

School Physician.
