REPORT OF THE SUPERINTENDENT

To the School Committee of Acushnet:

Gentlemen:

The report of the Superintendent of Schools for the year ending December 31, 1928, is hereby submitted.

The rapidly amounting cost in operating town, city, and state government has been a much discussed topic for the past few years. The amount of money spent for educational purposes in these localities, have been and will continue to be carefully scrutinized. This seems to be right and proper as education is taking nearly one half of the total appropriation in all localities.

Faced with a rapidly growing population and the necessity of providing new buildings, the citizens of Acushnet have never hesitated to meet these responsibilities and to provide funds for their maintenance.

The need for economy has been kept in mind in preparing the budget for the coming year. That this is a difficult problem is attested by the fact that the department had to provide for an influx of over one hundred-fifty unexpected pupils at the opening of school in September. A large percentage of these came in from the New Bedford Schools. The census enumerator found an increase in school population of more than eight per cent over the previous year. Also, it is impossible to forecast the number of

children who will elect the high school courses. Last September saw an enrollment of fifty-eight pupils, for which the Department had to provide tuition and transportation. Next September this may easily be increased to seventy or seventy-five.

The estimate for carrying on the educational work of the town for the ensuing year is as follows:

General control:

Superintendent's salary	\$3,500.00	
Census enumerator	100.00	
Attendance officer	50.00	
Expense of office	150.00	\$3,800.00
Expense of instruction:		
Teachers' salaries	29,000.00	
Books	1,300.00	
Supplies	1,300.00	31,600.00
Expense of operation:		
Salaries of janitors	4,680.00	
Fuel	1,750.00	
Insurance	1,200.00	
Building supplies, lights, water, etc.	1,000.00	8,630.00
Transportation:		
High School	800.00	
Town	2,000.00	2,800.00
Tuition		9,000.00
Health		1,100.00
Miscellaneous		250.00
Repairs		1,200.00
New equipment		600.00
Total		\$58,980.00

The keeping of this estimate so near the expenditures of 1928 is wholly accounted for by the saving under the item for transportation.

The citizens of the community should realize that this sum does not represent the net cost of the schools. Reimbursement comes from the state on account of teachers salaries, and on account of continuation school tuition. These sums are not accredited to the school department, but, nevertheless helps reduce the cost of the schools to the taxpayer.

Last year the town received the following amounts:

Reimbursement on account of teachers' salaries	\$5,175.00
Reimbursement on account tuition New Bedford Continuation School	683.20
Deducting this amount from the total expenditures we arrive at the following:	
Total expenditures	\$58,893.70
Total receipts	5,858.20
Net cost to the town	\$53,035.50

Last year's report gave a table of how the money of the department was distributed and a comparison with the expenditure of school funds in other towns within the state. This table showed a net per pupil cost of \$64.25. This year the net per pupil cost shows a still lower figure, \$60.50. This places Acushnet as one of the very lowest in rank of per pupil cost within the state.

TRANSPORTATION

One of the outstanding accomplishments of the department for the year 1928 was the new policy entered into for the transportation of the school children. The cost of transportation in small towns, for the past few years, has increased the educational budget more than any one item.

The committee after studying the situation in towns where the transportation costs were low, found that town ownership of all school busses was the most economical way of meeting this problem. Accordingly a contract was made with a motor company to furnish a new school bus on the deferred payment plan whereby the transportation costs were kept as low as in previous years, and at the end of the year the bus to become the property of the town. The saving during the first year has been \$186.92 with the full purchase price of the bus added to the transportation costs. Next year transportation cost should be lowered nearly \$1,800.00.

In the light of the experience of other towns the committee has reason to believe that this bus will last from five to seven years.

SCHOOL HOUSE ACCOMMODATION

Ten years ago the school children of the town were housed in two buildings, the Long Plain school with two rooms and the Parting Ways school with eight rooms.

The rapid development of the town necessitated a building program. In 1919 the Marie S. Howland

school, a four room building, with an auditorium was erected. The following year saw the Mason W. Burt school, a four room building completed. During the summer of 1924 the building at Long Plain was remodeled and made into a four room building with three rooms finished. In 1926 the building at Parting Ways was remodeled and enlarged to a ten room building. For several years the auditorium at the Marie S. Howard building has been used as a school room. These new buildings and new improvements to the older buildings gave the town twenty-two available school rooms. It was thought that they would be sufficient for several years. However, the influx of children this fall necessitated the transferring of over sixty children to the Burt and Howard school, also, the opening of a room in the town hall. Every available seat in every room has been occupied during the year. Some of the rooms, with a seating capacity of forty are housing forty-eight and fifty pupils. The graduating classes next spring will not relieve conditions to any extent. The department is faced with a real housing problem.

I am not in favor of portable school houses as they have never proved satisfactory.

I recommend that a site be purchased and a school building be erected that will take care of the higher elementary grades and also have rooms enough to care for the pupils of the first year high school. This will lower the cost of outside high school tuition, give more pupils the advantage of extra school work and relieve overcrowded conditions in the present grade buildings.

I wish to call your attention to the reports of the music supervisor, the school physician, school nurse, and the school dentist. They will give you a comprehensive idea of what is being done for the health of the children.

My thanks are extended to the school teachers and to the Board for helping make this a very profitable year.

Respectfully submitted,

CHARLES H. HOLMES,

Superintendent of Schools.

REPORT OF THE SCHOOL PHYSICIAN

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Mass.

My dear Mr. Holmes:

It gives us pleasure to submit, at this time, our annual report of the medical work of and in the Acushnet schools. We might say this year we have felt a triple pleasure as our work has neared completion.

First, and perhaps greatest has been our pleasure in seeing and being able to report a very marked improvement in the physical condition of the pupils. This improvement while naturally greater in the upper grades is still very perceptible in the lower grades. Postural conditions especially are very much improved, and with improved position must go both circulatory and digestive improvement as well as pulmonary gain.

Second, we find great pleasure in an active cooperation of principals and teachers in each school. The work of the school physician must depend for its continuity and ultimate result upon the daily cooperation of each teacher.

And third, but far from least, have we appreciated and taken great pleasure in the hearty and almost universal cooperation of the parent. We are

sure that each year sees less and less of the antagonism and opposition previously evinced toward the suggestions sent to the parents by physician and school nurse.

We find evidence of much better sanitary conditions in the childrens' homes and their personal conditions.

One of our long cherished ambitions has been, at least, realized in securing the services of a capable dentist to supervise and correct dental conditions, and when we realize that less than eight per cent of the children have even been in a dentist's chair, we can imagine the condition of these childrens' mouths.

Our pre-school clinic has resulted in a far greater per cent of first grade children coming to school vaccinated, as over forty children were vaccinated at one pre-school session.

Contagious diseases have been kept at a minimum, we believe, as no outbreak of any seriousness has developed. One threatened outbreak of scarlet fever was stopped by closing the school, segregating the pupils, and having them visited daily by special nurses rather than expose our school nurse to this danger.

While we realize that our work is a long ways from complete and that there is room for much more improvement we are grateful for each annual improvement. We hope in the near future to do something more in nutritional work, also, to be able to secure a simple apparatus for corrective postural work.

We shall be very glad at some future time to devote time at regular intervals in supervising such corrective work.

Thanking you and your associates for your continued and hearty support, we are,

Sincerely yours,

JOEL P. BRADFORD, M. D.

REPORT OF SCHOOL DENTIST

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Mass.

Dear Sir:

Perhaps no part of the wonderful body-machine more directly govern our physical and mental well being than the teeth. They may be vigilant guardians of health and happiness; or they may become vigorous agents of disease and worry. Which they will be depends on whether we give them proper attention or neglect them..

As we measure the worth to ourselves of sound, regular teeth, so should we value them for the children and appreciate their important relation to their future. Teeth kept healthy by early care may insure for them good looks, good health, efficiency in work, the savings of money, comfort and contentment. Unhealthy teeth, the result of neglect, may give them uncomely appearances, toothaches and other diseases, loss of time from their work, and dentist and doctor bills.

The teeth are, in a sense, like flour mills. Their purpose is to grind food into small particles, making it suitable for passing on to the stomach. If they are not kept healthy and strong they will not be able to perform this task properly and the stomach will become overworked and tired.

If teeth are dirty the food will rub off some of the dirt and carry it into the body. Decayed teeth and dirty mouths may result in many ailments, such as headache, colds, skin troubles, abscesses, boils, nervousness, neuralgia, neuritis, rheumatism, and, heart trouble.

The general aim of the dental department is to inculcate into the minds of the children the great importance of good teeth and healthy oral tissues by direct contact and treatment. This is brought about by examining the mouth of every child in the public schools, and making a diagnosis of every condition found with the aid of microscopic study. Of all the children examined only eight per cent have ever had any dental treatments.

A separate report is maintained of every child examined, and thereupon is kept a complete record of the work done and what is yet to be completed. At the completion of treatments, the child is given a certificate which is good for six months, at the end of this time the mouth is reexamined. All this work is done for a minimum fee payed by the child; the greatest part of the cost being payed by the board of health.

This is the first year that this dental clinic has been tried in the town of Acushnet and great co-operation is evident throughout the different schools. Forty percent of the pupils of the Marie S. Howard School have received treatments and ninety percent at the Long Plain School.

This work has been in progress for five weeks (1928) and two schools have been attended.

This is the most important year (1929) of this department. Every child must be examined, treated, and brought up to standard, and the work arranged on a basis of a certain amount of time per week.

The importance of this work can not be over emphasized and if at any time doubt arises in the minds of the parents as to treatment of their children's teeth a personal consultation may help to clear up their difficulties.

I extend my sincere thanks to all the parents and teachers who are cooperating with me to make this work a great success.

REPORT OF SCHOOL NURSE

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Massachusetts.

My Dear Mr. Holmes:

Another year has closed and though it has been a trying one for all still I feel that a great deal has been accomplished.

It is very gratifying to see at last, the results of what represents years of toil educating the school children in health habits and working to obtain the ways and means by which they could enjoy every advantage.

Our tonsil cases alone this year have been reduced to more than half of last year's percentage. Then too, we have really been able to start the Dental Clinics which you all have worked so hard to obtain. I feel that we owe a rising vote of thanks to the Superintendent, School Physician, teachers, and the school children themselves for this splendid Dental Clinic.

I have merely been the reaper in this work but will try my best to carry it along progressively.

Respectfully yours,

MARGARET McNAIR, R. N.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Mass.

My dear Mr. Holmes:

Music is the oldest of all Arts. Every primitive race had its music as shown by the records preserved in stone. "Of music", says Sir Thomas Browne, "There is something in its divinity more than the ear discovers. It unites the ligaments of my frame, dilates me out of myself and by degrees methinks resolves me into Heaven."

If music is conceded to be the greatest single appeal to the emotions, the imagination and cultural aptitudes of our being, surely the Great All-Wise Father never intended it should remain, a chosen gift to a chosen few, but a benefactor to all His children, the universal language, the universal chord that vibrates between each soul and its creator.

If music is to function as a real fundamental in education, what phase, or presentation of the subject can best serve? Our pupils are living in 1929 not 1900. Is it possible, practical or sane to offer the same recipes, the same menus that sufficed for the needs of 1900?

The introduction of modern methods in vocal training, the study of orchestral instruments and of the piano, the hearing of real music, itself, adequately and accurately reproduced by marvelously perfect mechanisms, and, as opportunity offers, by artists and great orchestral organizations on the air or in presence, must be reckoned with.

"Natures book hath music writ
 Closely on each page of it;
 Breaking mane and breeze and tune
 Of the oriole in June,
 Bugle call, great organ swell,
 Flute and harp and chiming bell;
 Yet there be who cannot hear—
 Grant us, Lord, the listening ear""

In all my days of teaching I have never experienced such desire among young people as our boys and girls are showing in their efforts to know and understand more of music. For this I am truly grateful. I would emphatically emphasize the need of more private instruction upon the piano and orchestral instruments. I feel very sure that if more parents visited our schools and saw the work carried on in our music department they too, would take great pride in the manner in which our boys and girls show their eagerness in this part of their school work.

Last June's graduation in the Marie Howard and Long Plain schools is worthy of mention. The Operetta given at last commencement at the Parting Ways school is of special mention. At this time the outgoing class presented in a highly credible performance, "Sailor Maids," by Charles Ross Chaney. Following is the story of the play and cast of characters taken:

Francis Marie is celebrating her eighteenth birthday and the launching of her new yacht. Edward Doner, a playmate sweetheart, whom she has not seen for eight years, is to be the pilot. He knows nothing about yachting and detests the ocean. When

he arrives he is mistaken for a caterer but because of his interest in Jeanette, a friend of Frances Marie, does not reveal his true identity. Edward's friend, David Kern, a yachtsman, is taken for Edward. After many complications their true identity is learned. Then a thorough explanation after which they win the girls with Father's blessings.

Cyrus Templenton, the light-house keeper,
 Stanley Palko
 Frances Marie, a Sailor Maid, his daughter,
 Vivian Chourtemach
 Jeanette Spencer, friend of Frances Marie,
 Irene Charpentier
 Olga, the Sweedish house-keeper,
 Evelyn Fletcher
 Capt. Doner, a retired sea captain,
 Edward Glecia
 Edward, his son,
 Stanley Palys
 Gerald Kennedy, an ardent admirer of Francis Marie
 L. Marcel Poyant
 David Kern, a yachtsman,
 Allan Rawcliffe

In conclusion may I again extend my sincere thanks and appreciation to our splendid corps of teachers in the various schools for their appreciated co-operation.

Respectfully yours,

ALMON C. OAKES,
 Supervisor of Music.
