REPORT OF THE SELECTMEN

As required by the General Laws of Massachusetts, under Section 49 of Chapter 40, the Selectmen have caused this report to be printed for the use of the inhabitants. It contains a report of their doings, the report of the School Committee, the Highway Surveyor's report, and such other reports as officers and boards have deemed expedient to make, and a list of jurors as required by Section 4, Chapter 234 of the General Laws.

MEETING AND ORGANIZATION OF THE SELECTMEN

At the first meeting of the Selectmen, held March 6, 1923, Norman L. Sivigny, Edmund A. Lambert, and Antonio R. Laliberte, who were elected March 5th and duly sworn, being present, proceeded to organize as

follows, viz: Norman L. Sivigny was chosen Chairman and Clerk. Fifty-two regular meetings were held during the year.

Your Selectmen most respectfully desire to call your attention to the crowded and unfavorable conditions under which the Town's business is done at the Town Hall. The various boards and officers meet weekly for the transaction of business, in a room 11 by 26 feet. This also serves as a storage room for Town books and records, not omitting four safes of large dimensions, filing cabinet, ballot boxes, and other appliances.

The heating arrangements in this part of the building are inadequate. One heater of insufficient capacity is used to supply heat to the Public Library and the Selectmen's office. The two rooms cannot be heated simultaneously, resulting in discomfort to the occupants of both.

The Selectmen further recommend that plans be made by the Town, looking to the construction of a safe storage vault for the keeping of valuable books, documents and records. At the present time these are stored in iron safes and there is no more available space.

The following licenses were granted during the year:

Books have been donated as follows: Two volumes of "United States," from Mrs. C. H. Coxen of New Bedford; four books of fiction from a friend; "Told Under a White Oak Tree," and "A Lighter of Flames," by the author, William S. Hart of California; "Amelia Peabody Tileston," by her sister; "American Nights Entertainments," by the Library Book House of Springfield; "Planning a Trip Abroad," by the U. S. Shipping Board at Washington; and the usual Manuals, Journals, General Laws, and Vital Records from the Massachusetts State Departments.

Respectfully submitted,

EMMA L. WHITE,
Librarian.

ACUSHNET FREE PUBLIC LIBRARY.

Secretary's Report.

To the Citizens of the Town of Acushnet:

There has been 157 volumes added to our Library in the past year. All the damaged books have been rebound and are in very good condition.

Our Librarian, Miss Emma L. White, has enjoyed the co-operation and good will of her many patrons and has been ably assisted in her pleasant duties by Miss Gladys P. Ellis and Miss Gertrude Petty.

Our Library at Long Plain has fulfilled the wants of our patrons in that vicinity very well and our Librarian, Mrs. Arthur Tripp, has enjoyed the good will and confidence of her many patrons. Would be pleased to state that our Library at Parting Ways is wholly inadequate for the ever increasing demand on it at present, and having the approval of the Trustees would recommend an addition soon.

Respectfully submitted,

JAMES L. KANE,
Trustee and Secretary

I have examined the accounts of the Treasurer and Collector of Taxes, and find them correct.

WALTER F. DOUGLAS,
Auditor.

REPORT OF BOARD OF HEALTH

To the Voters of the Town of Acushnet:

Your Board of Health respectfully submits the following report.

The members of of the Board of Health met in March and organized as follows:

Joel P. Bradford, M. D., Chairman; Fred E. Wellington, Secretary and Agent; Otto Melzer.

Albert S. Jenney was nominated Inspector of Slaughtering for the year 1923; which nomination was later approved by the State and he was sworn into office.

Contageous diseases reported to the Board during the year are as follows:

Diphtheria,	7
Measles,	76
Scarlet Fever,	9
Whooping Cough,	7
Chicken Pox,	1
Tuberculosis,	10
Septic Sore Throat,	1
Influenza,	3
	114

There have been 77 deaths in Town in 1923.

On account of the rapid growth of the town, and the consequent increased sale of milk during the past year the Board has established the rule of inspecting the premises of and issuing licenses to all milk dealers in the town.

During the year 19 licenses have been issued.

Following the recommendation of the State it was voted to placard all houses where cases of whooping cough, measles, scarlet fever, diphtheria, and typhoid fever are known to exist.

Noticing a great increase in the number of animals slaughtered in the town and the consequent added expense for the inspection of same the Board recommends that the incoming Board should establish the maximum fee for slaughters' licenses.

The usual number of petty complaints of nuisances have been investigated and adjusted.

JOEL P. BRADFORD,
OTTO WM. MELZER,
FRED E. WELLINGTON.

REPORT OF HIGHWAY SURVEYOR

Work was started upon the highways about March 15, 1923. All the dirt roads were scraped; gravel was spread on Main Street in several places, also on Quaker Street. The State paid for transportation and loading of the gravel for Quaker Street, the town paying for the spreading.

Two 24-inch culverts were placed on Middle Street, at an expense of about \$500. One is near Walter A. White's place, the other near Charles E. Gifford's. At the same time Main Street was being patched, and was later oiled with 60 per cent. Asphaltic Road Oil.

In June 700 lineal feet of Bituminous Macadam 24 feet wide was built on Slocum Street, at a cost of about \$3,000, this amount being \$500 in excess of the original appropriation. The deficit was made up by the Finance Committee from the reserve fund.

In July work was started on the appropriation of \$15,000 from the State, County and Town. The contract between the State and Town called for 2100 lineal feet, which was finished in September. There being some money left, work was continued until October.

Towards the end of the season, the crusher plant was installed at a gravel bank on Middle Street. The material was used on Middle, Hope, Grant and Colombe Streets. In my judgment, use of this material will be very satisfactory and economical for Middle Street, if given a surface of oil. I recommend a substantial appropriation for this purpose.

In November tar was applied on Main Street, from the end of the concrete road to the top of Taber Hill, the tar being paid for by the State.

Curbing was installed at the corner of South Main and Main Streets. Mr. Moise Berard paid for

70 feet in front of his place, at an expense of over \$100.

I take this opportunity to thank all whose co-operation contributed to the success of the 1923 road work.

ALEXANDER A. VINCENT,
Highway Surveyor.

SCHOOL REPORT

1923

School Committee

LOUIS GAUDETTE	Term expires 1925
JOSEPH DABROWSKI	Term expires 1926
JOSHUA ADDY	Term expires 1924
LOUIS GAUDETTE, Chairman	

CHARLES H. HOLMES, Superintendent.

Telephone at office in Parting Ways School,
7685.

Telephone at home in New Bedford, 1077-M.

Voted in Committee on February 14th, 1924, to accept the report of the Superintendent and approve it as the report of the School Committee.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Acushnet:

Following is the report of your School Committee for the year 1923.

Your committee would feel remiss in their duty if they failed to again call your attention to the fact that a great emergency for the establishment of a Junior High School exists in the Town of Acushnet, both from an economical and an educational point of view. In this connection we present to you the necessity for the formation of a committee, to consist of the members of the School Committee, the Board of Selectmen, and five other members, representing the different sections of the town, to make a thorough investigation as to the needs of a Junior High and to report back within the month.

Your Committee take this step for the reason that they are impressed with the fact that the children of this town are entitled to a full time schooling, and for this reason and this reason alone, we urgently request the adoption of the article contained in the warrant with this purpose in view.

Respectfully submitted,

LOUIS GAUDETTE, Chairman.
JOSHUA ADDY,
JOSEPH DABROWSKI.

BUILDING PROGRAM

A building program to take care of the natural increase in the school population of this rapidly growing community is perhaps the greatest need in the Town of Acushnet at the present time.

Counting the Parochial school as five, an average of four rooms per year have been opened in the town within the period of 1920-1923. There is no reason to suppose that this demand on the school accommodations will grow less. On the contrary, homes are

building so rapidly as to render safe reckoning of at least one room increase from the outside.

In the Parting Ways school one room has always taken care of the seventh and eighth grades. At present there are forty-six pupils in the seventh alone. Allowing for the number who may leave because of economic reasons there will still be a large eighth grade for next year. We can also count on a few additions from other schools. One teacher cannot handle the two grades as heretofore.

Overflow conditions existed to the extent in the Marie S. Howard school last fall that it became necessary to fit up a room in the assembly hall to relieve the congestion in the fourth and fifth grades.

The Long Plain school must have relief before another school year. At present all but two seats are occupied with a membership of seventy-five pupils. Eight are to graduate this spring, but the number to enter next fall is sufficient to increase the membership to ninety. The first four grades in this building are being taught by two teachers, using the same room with only a screen partition—an impossible condition. I recommend an addition of eight feet to the north and south wings of the building, erecting partitions and changing the entrances. This would make a modern four room building. I believe that this could be done at a nominal cost.

The town report of 1920 shows that you expended in that year \$3,334.98 for High school transportation and tuition. The year just closed shows an expenditure of \$7,951.66 for the same purposes, an increase of over two hundred per cent. There are thirty-two to be graduated this spring, a large part of whom are planning to enter the High school in the fall. There is every reason to suppose that it will take approximately \$10,000 for High school tuition and transportation for the ensuing year. Can Acushnet afford to

spend this ever increasing amount for a chosen few when nearly one-half of it might be spent within the town for the support of a Junior High school where it would benefit many times the number of the present High school students? Might we not well consider the desirability of taking immediate steps to establish such a school? This would undoubtedly be a progressive movement. Small towns in Vermont and Massachusetts are rapidly recognizing the value of this new type of school in much the same way as are the cities.

A number of conditions found in Acushnet are especially favorable to the building of a Junior High school. As named above they are:

1. Seven thousand, nine hundred and fifty-one dollars and sixty-six cents spent for High school tuition and transportation during the year 1923. A large part of this sum would be available for a Junior High.

2. Acushnet is constantly being faced with the problem of insufficient school accommodations.

May I call your attention to the advantages conceded to the Junior High school which includes the seventh and eighth grades and the first year of High school?

1. Pupils are promoted by subjects instead of by grades. This results in fewer pupils repeating a whole term's work, thus conserving the pupil's time.

2. Departmental teaching enables a school to secure better service in all subjects, thus holding the pupil's interest in school.

3. The good Junior High is so much better adapted to the needs of adolescent boys and girls, that many more complete their grammar school education.

4. It tends to lessen the gap between the elementary and the high school, enabling more pupils to successfully complete their High school education.

The most important of all to my mind is that a larger number of pupils will benefit by such a school.

I recommend that the School Committee ask the town for the sum of \$85,000 to erect such a building and a sufficient sum to purchase suitable grounds for the same.

MANUAL TRAINING

The manual training course is one of the most popular and most profitable courses in the school. The first year the boys learn the names of the different tools, their care and the handling of them, and make a few simple but practical problems. These problems demonstrate the smoothing of the face of a board, making square edges and ends. The sleeve board brings in the use of the compass and the spoke shave. The broom holder demonstrates the use of the bit and how to distinguish the sizes. In the spring the first year boy finishes his instruction with the making of window screens for his own home.

The second year boy devotes the most of his time to the making of household furniture that is not complicated in construction. Last year the boys made some excellent magazine racks, window-boxes, book ends and tabourets. This year they are adding to their problems by making clothes trees. These are made a little shorter than the ordinary tree that is found in the furniture stores. Aside from this the boys make small repairs around the building. These include the repairing of chairs, the mending of desks, the replacing of worn steps, the making of small book shelves and magazine racks.

The boys of the Marie S. Howard school, under the direction of Mr. Jenkins, the janitor of the building, partitioned off a room in the assembly hall for the use of an overflow class of the fourth and fifth grades. I estimate that they saved the department over \$50 in labor.

Last year at the New Bedford-Fairhaven-Dartmouth-Acushnet Boy Scout rally held in the New Bedford Armory the boys of Acushnet competed in an exhibition of handicraft. Ten prizes and three ribbons were offered for the best work done. The boys from Acushnet won seven of the ten prizes and two of the three ribbons. I think that our present second year boys are doing as well as most first year high boys.

This year we have added eight new benches fully equipped with tools. This makes our room somewhat crowded, but also makes it possible to handle a larger number of pupils at a time.

TRANSPORTATION

This year the problem of transportation that has always caused more or less dissatisfaction has been successfully worked out by the Committee. They have required well covered motor vehicles handled by well qualified drivers. A bond had to be given by the contracting parties which contained a schedule of arrival and departure. Seventy-two children are transported daily and are much more easily looked after than those who walk to school.

HEALTH

The importance from the standpoint of education of the correction of physical defects and improvement of health is shown in studies by many individuals who have studied the relation of physical defects to school progress. They have found a direct relation between low scores and physical defects. Ranked as to degree of handicap the defects are: (a) Nasal obstruction, (b) defective teeth, (c) defective hearing, (d) defective tonsils, and (e) defective eyes.

The State Department of Education, recognizing these defects have sponsored laws which makes it

compulsory for school departments to employ a school physician and a school nurse. The Acushnet School Committee in compliance with these laws have engaged the services of Dr. Ubalde Paquin, Chairman of the New Bedford Board of Health, to make physical examination of every child in the public schools. Miss Eva Clements, the school nurse, has helped him in this work, and is to do follow up work after the examinations are completed. At this time 300 children have been examined. From this number 178 were found with defective tonsils and 216 with defective teeth. These results show one reason for so many retarded children in our schools.

SEWING COURSE

It has long been the desire of the present Committee to introduce a course in Domestic Arts for the girls. The introduction of this course has been postponed for various reasons, the lack of funds for equipment, no suitable place for class instruction, and the services of an adequately trained teacher could not be secured. However, in December, we started the girls of the seventh and eighth grades in a simple course in sewing requiring no expensive equipment. The principals of the Parting Ways school, the Long Plain school, and the Marie S. Howard school are at present acting as instructors for this course. The girls of the sewing classes and the boys of the manual training classes are planning for a public exhibition to be held some time in May.
