HENRY O. SAUCIER, JR.,
Sealer of Weights and Measures.

REPORT OF THE BOARD OF HEALTH

To the Town Officers and Voters of Acushnet:

The Board of Health presents for your approval its annual report.

Immediately after Election the Board met and organized as follows:

Chairman — Joel P. Bradford, M. D.

Secretary and Agent — Fred E. Wellington

Inspector — Pervical L. Ashley

which organization has continued to the present time.

Allen E. Weeks was re-nominated for Inspector of Slaughtering and following his appointment by the State Department was duly sworn into office by the Town Clerk.

The work of the year has been minus any unusual occurrence unless the occurrence of one case of rabies infection be considered as such.

This case was successfully given the complete Pasteur treatment and recovery was complete.

Perhaps our most marked results have come through our employment of a dentist in the public schools, which work legally must come through the Board of Health.

A great improvement has been noted in examinations this year both as to infected lymph glands and general health.

The Board sincerely hopes to continue the dental work the ensuing year.

Contagious diseases have been reported to the Board

of Health as follows:

	cases
Tuberculosis	4
Pertussis	3
Measles	63
Diphtheria	7
Scarlet Fever	4
Chicken Pox	10

Deaths occurring during the year 85.

One permit to collect garbage in the town has been issued and the work satisfactorily carried out.

In general health conditions are up to a high standard in the town we believe.

JOEL P. BRADFORD,
FRED E. WELLINGTON,
PERCIVAL L. ASHLEY,

Board of Health.

REPORT OF INSPECTOR OF ANIMALS

To the Board of Selectmen:

During the year 1929 I inspected 113 barns, 788 cattle, 92 swine and 1 goat.

I condemned 2 cows infected with tuberculosis.

I would suggest that every one in town use milk from tuberculin tested cows or pasteurized milk.

Respectfully submitted,

F. O. TRIPP,

Inspector of Animals.

REPORT OF THE POLICE DEPARTMENT

To the Honorable oBard of Selectmen,

------------	----------

Summing up the various increased demands made upon this department, and the urgent improvements recommended in this report, you can readily understand the financial impossibility of handling this department under the present appropriation. It is the earnest endeavor of the police to run their department as economically as possible, but in

order to afford the residents of the Town the protection they have the right to demand, we feel that a substantial increase in our appropriation is essential.

A complete system has been installed, and all calls, court cases, etc are on file for future reference.

Due to the increased conditions on the State Road. We also call your attention to the intersections of Slocum and So. Main St., and Main and So. Main St., These two very bad intersections in your Town and we feel that the Town ought to have Automatic Traffic Control Lights at these places. We also call your attention to the fact for the protection of school children of the Town, police officer should be placed at schools throughout the Town to regulate traffic.

Respectfully submitted,

OTTO W. MELZER,

Chief of Police.

REPORT OF THE SUPERINTENDENT

To the School Committee of Acushnet:

Gentlemen:

The report of the superintendent of schools for the year ending December 31, 1929, is hereby submitted.

The administration and accomplishment of any municipal department of a town or city is better known and understood by those who are in close contact with it than is the general public. This applies to the school department more than to any branch of town government.

The School Committee, annually ask for the largest appropriation. They direct the expenditures of money for upkeep of the school buildings, the payment of teachers and janitors, and for the transportation of pupils. They receive, from the superintendent, monthly, a report of progress of the schools, and equipment needed. The School Committee being fully acquainted with the amount of work done is able to meet efficiently, the thousand and one problems that arise during the school year.

The town report is the only medium by which citizens become acquainted with the work of the department. For this reason matters that are pertinent to the voters will be discussed.

The physical condition of the school plant is in excellent condition. The committee during the last five years, has carried out an intelligent and well planned expenditure of money for repairs.

This year two coats of paint have been given to the Parting Ways school, and at the request of the State Inspector of schols, extensive repairs have been made at the Long Plain school.

The drinking fountains at the Parting Ways school have been removed from the coal and wood basement, and placed in the rear hall on the first floor. Four new bubblers have been added. For the convenience of the four hundred pupils who use this several times daily, as well as for sanitary reasons, this has been a wise expenditure.

The acedemic side of the department has not been neglected. For some years the department has been collecting data on advanced methods of reading. This year a teacher committee was appointed to choose from this material a course in reading that would be modern enough in its tendencies, and basic enough in principle to last for several years without making a change in text books. The committee chose as the best course the "Child-Story Readers". A silent reading series that is based on the most complete check up of the pupils vocabulary, comprehension, and progress that has yet come from the press. A marked improvement has already been observed in the added interest and ability of the pupil over the old method.

The committee on English has made an intensive study of the needs of this department. They have compiled a tentative course for the eight grades. This has been mimeographed and now is in the hands of the grade teachers.

Some radical changes have been made in the arithmetic

course. Formal number work has been dropped from the first two grades. The pupil's only acquaintance with this subject being simple problems that are connected with life interests.

A course for the first four years in history is now in use. The committee has presented a strong course for these grades and good results are expected.

The committee appointed to rewrite the course in geography has net accomplished what it desired. The latest textbooks on this subject are edited on the one cycle plan. The text books now in use are edited on the two cycle plan. As the books now in use are in good condition the department did not feel that the expense of adopting a new text book at this time was advisable.

Accomplishment tests have been used for the first time this year, also mental tests. The results of these tests have been carefully compared and results tabulated. These tests are not used for promotional purposes, but are used to give the teacher a comprehensive check-up on each pupil. With this knowledge to guide her she can give intelligent aid to the individual pupil. We have worked out, as a result of these tests, a partial unit system of teaching in two of the schools. While this method entails considerable more work for the teacher, we think that it will give to each pupil an added incentive for more rapid advancement.

In every school in town there are several well organized and active 4 H Clubs. The most popular courses being: sewing, gardening, poultry raising and forestry.

The foregoing recounts some of the work accomplished during the year. It does not list all the activities, but gives some idea of the comprehensive work being done by the school department.

The policy of keeping the buildings in good repair should be carried on this year. The outside trimmings of the Mason W. Burt school, Marie S. Howard school, and the

Long Plain school should be painted this summer. The School room walls in the Mason Burt school and the Marie S. Howard school should be retinted. Nothing has been done to them for ten years. The present color scheme is somber and harmful to the eyes.

The unused boiler at the Parting Ways school should be put in usable condition as a safety measure. It is needed on cold winter mornings to furnish auxiliary heat. The present boiler does not furnish sufficient radiation for extremely cold mornings.

The lighting system at the Long Plain school should be corrected and more lights added. This can be done at a small cost. The director at the New Bedford Vocational School has presented figures on the cost of material and will do the work as a practical problem, to give his students experience in actual wiring.

An appropriation should be made to take care of the cesspools at the Marie S. Howard schools. A large septic tank should be installed and connected with both toilet rooms. This tank should be large enough to take care of the three extra rooms that, may, sometime, be added to the building.

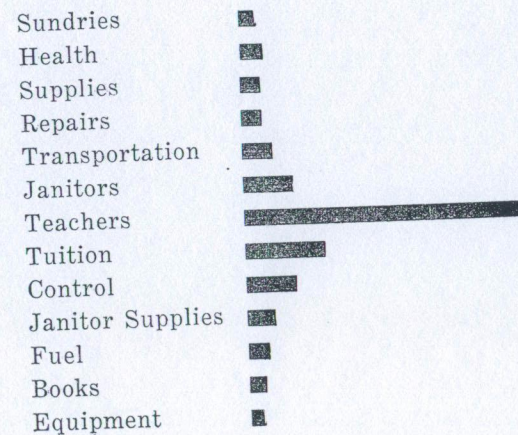

The water supply at the Long Plain school is not adequate for the building. The water pipes connecting the well with the building are nearly filled with rust.

Though many unforeseen expenses have come up for payment this year we have kept within the budget. The reason for this can be explained readily. The strike in the New Bedford mills during the summer of 1928 caused many children from Acushnet, who were working in that city, to be idle. As a consequence our Continuation school bill

dropped from over eighteen hundred dollars to less than eight hundred dollars. For the first time since the construction of the Normandin Junior High school, in New Bedford, we have had the privilege of sending our first year pupils there. This has been a saving to the department in both tuition and traveling expense. These two items alone has saved the department nearly two thousand dollars.

The increase asked for this year is nearly all allotted to the expense of instruction. We are retaining a large number of our present corps of teachers. As few of these have reached the maximum salary set by the department, they will receive their regular increase. We also have added an extra teacher to the teaching force this year.

In addition to the figures of departmental expenditures I am presenting a graph showing how each dollar of school money is spent.

HOW THE SCHOOL DOLLAR WAS SPENT

General Expenses	.065	Misc. Operating Exp.	.031
Salaries of Teachers	.516	Repairs	.030
Text Books	.019	Health	.015
Supplies	.016	Transportation	.045
Janitors salaries	.050	New Equipment	.004
Fuel	.029	Sundries	.002
Tuition	.149		

The following is the estimated budget for the year 1930:

General Control:

Salary of superintendent	\$3,500.00
Attendance officer and census enumerator	250.00
Telephones	125.00
Office supplies	60.00
Traveling expense	65.00

Expense of Instruction:

Teachers salaries	31,550.00
Text books	1,200.00
Supplies	1,000.00

Operation:

Repairs	1,500.00
Janitors salaries	4,700.00
Fuel	1,600.00
Janitors' supplies	1,000.00
Insurance	175.00

Transportation:

Chauffeur	1,462.50
Gas and oil, garage rent	500.00

Repairs to bus	150.00
Car tickets	750.00
Health	700.00
Tuition	9,000.00
Sundries	150.00
Total	\$59,737.50

The amount of money raised is in excess of what it actually costs the town to maintain the schools.

The following reimbursements were received from the state during the last year.

Reimbursement on teachers' salaries	\$7,313.00
Reimbursement on tuition New Bedford Continuation school	372.50
Deducting this amount from the total amount raised we arrive at the following:	
Total amount expended	\$57,538.85
Total reimbursements	7,685.50
Net cost to the town	\$49,853.35

Your attention is called to the reports of the music supervisor, the school physician, and the school nurse.

In closing I wish to extend thanks to the teachers. Their unselfish and untiring efforts and splendid cooperation have made possible the accomplishment of much constructive work in our schools this year.

My thanks are due to the members of the School Committee for their efficient cooperation in all the problems that have come before them.

Respectfully submitted,
CHARLES H. HOLMES,
Superintendent of Schools.

REPORT OF THE SCHOOL PHYSICIAN

Mr. Charles H. Holmes
 Superintendent of Schools
 Acushnet, Massachusetts

My dear Mr. Holmes:

At the close of another year's work as school physician I find, as usual, facts both pleasing and others not as encouraging.

Industrial conditions both in 1928 and 1929 have been a factor militating against full accomplishment of our work for the utmost in physical improvement of the school children of the town.

The work of the school health corps—District Nurse and Physician—is necessarily interlocked and circumscribed by home conditions and cooperation. Without both of these to the fullest extent, our work is greatly neutralized, indeed may become entirely valueless.

The school physician and school nurse must confine their work largely to inspection and to supervision of the work done at home and, when the parents are discouraged and impoverished they fail of this co-operation.

Complaints have come to the department, for instance, following instruction as to pediculosis, that the nurse refused to enter the home to do the work. This of course is an extreme case but illustrates what we find in many cases in less marked degree.

As a whole the year's work has been very satisfactory. We have had no serious outbreak of contagion and our last complete examination shows marked improvement in general physical condition.

Of special prominence this year has been the work and results of our dental clinic. For the first time in the history of our schools we have had the services of a dentist and while our work has been confined to the most serious cases of mouth conditions the results have been most satisfactory. Not only are the mouths and stomachs benefitted, but enlarged and hardened lymphatic glands have decreased and general health has improved naturally.

The work has only begun and I feel that to withdraw now would be an extreme calamity. Of course we are, by law, dependent upon the Board of Health for the services of a dentist and we fully realize the financial condition of our department, yet we feel that the money paid out will be repaid with interest and we sincerely hope the Board of Health will see their way clear to provide a dentist again this year.

In summing up, I will say that conditions as a whole have improved and we are proud of our school, both as to postural conditions and as to general physical condition.

Thanking the Superintendent, Committee and teachers for their hearty cooperation, I am

Respectfully yours,

JAS. P. BRADFORD, M. D.,

School Physician.

REPORT OF THE SCHOOL NURSE

Mr. Charles H. Holmes
 Superintendent of Schools
 Acushnet, Massachusetts

My dear Mr. Holmes:

I am happy to say that the year just passed saw one of our brightest hopes realized, the starting of our Dental Clinic. We are happy to say that seventy-five per cent of our school population received Dental Certificates for completed work.

Our regular physical examinations for the year is as follows:

Number of pupils examined	776
Number of defects found	
Teeth	238
Tonsils	368
Enlarged Civic Glands	59
Enlarged Thyroid Glands	51
Heart	105
Spine	4

Report of the State Tuberculosis examination was as follows:

Number of children examined	7
Number of children X rayed	7

Number of children referred to the Sanatorium	2
Number of children sent to summer camp	2

Very truly yours,

MARGARET McNAIR, R. N.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. Charles H. Holmes
 Superintendent of Schools
 Acushnet, Massachusetts

My dear Mr. Holmes:

Music already occupies an important place in the curriculum, but, owing to new requirements and the inherent difficulties, it is almost impossible for the majority of our children to hear good music often enough to enable them to educate their ears to a proper understanding of music as an art.

I maintain that music, as a language can be understood by almost anyone. The cases of people who are so called tone deaf are exceedingly rare. The main thing is to teach our own young people enough and to make them see how music, as a language, can reflect their own feelings. Children can feel just as intensely as adults and in some cases more intensely. The grief of the little girl whose doll is broken is, for the time being, just as great as that of the mother who loses her own child. Luckily such misery, such sorrow, in the child, does not last, for the next new doll will do much towards obliterating the memory of the last one.

Therefore these primal emotions of joy and sorrow, of pride, of humility, of religious aspirations, of merriment or amusement can be felt by the child to as great a degree as by the adult; and the delight of the child in finding that all of its feelings can be reflected and interpreted in music is wonderful.

The progress of the pupils of the various schools is most gratifying to me. The quality of tone developed in the early grades is being carefully worked out. In the upper grades part music is used. Much more attention is being given to the technical side of music which is followed at frequent intervals by tests. This season in the Parting Ways school we have a mixed Glee Club of some seventy voices.

Your attention is called to the graduation at the Marie S. Howard school last June when Miss Davis so carefully prepared, "The Childhood of Hiawatha", a secular Cantata, by Ira B. Winslow. Poem by Henry Wadsworth Longfellow. Also in the Long Plain school where Mrs. Reed so ably presented "A Trip to Europe" by J. C. Macy, a musical Operetta in three scenes.

At the Parting Ways school we gave an American Operetta, "College Days", A romance of college life. A musical comedy in three acts. Book, Lyrics and music by Mary H. Dodge and John N. Dodge.
